

CONTINUING EDUCATION **ASAP**

Registration + Management Software

Serving Continuing Education Since 1982

“From improved customer service to cost savings, from more effective marketing to increased data mining, ASAP has been not just a handy tool but a true game changer.”

— SUNY Cobleskill

- ✓ ENROLLMENT MANAGEMENT
- ✓ ONLINE REGISTRATION
- ✓ CLASSROOM MANAGEMENT
- ✓ INTEGRATION WITH LMS
- ✓ COMPREHENSIVE REPORTING

Specifically designed for Adult, Continuing and Community Education Organizations.

ASAP is web-based software designed to streamline registration and management processes for Community and Continuing Education organizations.

It includes all the advanced tools you and your staff need to manage diverse programs from anywhere at any time. Setting up a new system is remarkably easy and there's nothing to install, update or maintain. Because it is a modular system, you can adjust the set of features to suit your exact needs.

ASAPConnected.com is where your staff and participants interact online. A public website offers quick registration with secure personal accounts. And from an equally intuitive staff website, transaction records and reports adjust instantly. You also have the option to interact at event sites or a point of sale. ASAP stays quick and efficient by fitting the system to your needs
